

Summary

B.Tech Information Technology student with strong foundation in HTML, CSS, JavaScript, and SQL. Experienced in developing web applications, real-time systems, and database-driven solutions. Active in hackathons and tech communities with proven teamwork, leadership, and problem-solving abilities.

Skills

- **Languages:** JavaScript, HTML, CSS, SQL
- **Frameworks & Tools:** React, Node.js, MATLAB, Simulink
- **Database:** MySQL, Supabase
- **Tools:** Git, GitHub, Docker
- **Other:** API Integration, Visualization, Problem Solving

Projects

Metro Feeder Bus Tracker

- Developed a real-time bus tracking web application to improve commuter experience and route visibility.
- Implemented live tracking, route mapping, and user-friendly interface for efficient navigation.
- Focused on performance optimization and responsive design for better usability.

Hostel Management and Complaint System

- Built a web-based system to manage hostel operations and streamline complaint handling.
- Designed SQL database for storing, tracking, and retrieving complaint data efficiently.
- Implemented authentication and structured workflow for complaint resolution.

Pregnancy Journey Web App

- Created a healthcare application providing pregnancy tracking and health guidance.
- Integrated chatbot functionality to assist users with common queries.
- Designed intuitive UI to enhance user experience and accessibility.

Mars Weather Visualization App

- Designed a web application displaying Mars weather data including temperature and atmospheric conditions.
- Showcased creativity, API integration, and UI design skills.

Experience

Curation Team Member, Vibhava Innovation Fest

2025

- Curated innovative projects and collaborated with teams to organize event activities.
- Coordinated with participants to ensure smooth execution and presentation.

Curation Team Member, TEDx CUSAT

2026

- Contributed to content selection and speaker coordination for TEDx sessions.
- Worked closely with teams to maintain quality and event standards.

Outreach Team Member, SAIT CUSAT

2025–2026

- Led outreach initiatives and promoted events through strategic communication.
- Improved participation and engagement across student communities.

Outreach and PR Community, TEDx CUSAT

Sep 2024

- Handled event promotion and community engagement initiatives.
- Received special recognition in Freshers Quest Program for exceptional participation and dedication.

Education

Cochin University of Science and Technology

2024–2028

B.Tech in Information Technology

Certifications

- IBM SkillsBuild – Cloud Computing Program
- Completed one-month program “AI and Computational Thinking Essentials: A MATLAB and Simulink Hands-on” by MathWorks in collaboration with IEEE CUSAT SB, gaining practical exposure to MATLAB and Simulink for AI fundamentals.

Achievements

- Won First Prize for Best Idea at Hack_Europa, SAIT CUSAT.
- Presented project at Tinkerhub Carnival.
- Participated in Tinkerhack, a women-centric hackathon.
